

Helping You Make More **Informed Risk Decisions** at the Speed of Business

When it Comes to Cybersecurity, One Size Does NOT Fit All

Each customer environment is different. Your needs, gaps, skillsets and risks are also unique. We work with you to understand your business and challenges, and evaluate your cybersecurity posture and ecosystem to provide tailored recommendations that deliver your desired security outcomes.

Your Trusted Advisor

We help you navigate the complex threat and cybersecurity solution landscape with trusted expertise, solutions and services to help your organization make better decisions that minimize risk.

Expose potential risk

- Assess existing cybersecurity posture and architecture
- Identify gaps + vulnerabilities
- Eliminate solutions that don't work well together

Align + optimize resources

- Validate regulatory compliance + adherence with best practices
- Align solutions to in-house capacity

Integrate best-fit solutions

- Review, analyze, compare + vet current and emerging technology
- Recommend products, tools + controls that minimize risk
- Integrate + optimize best-fit solutions

Put an **ELITE** Team of Cybersecurity Practitioners on Your Side

Our highly-certified, operational cybersecurity experts have lived and breathed your job.

- More than **70%** of our workforce consists of tenured cybersecurity engineers, architects and consultants
- Many have managed security within the DoD and U.S. intelligence agencies and **Fortune 500 companies**

Hundreds of Industry and Product Certifications

GuidePoint Security Solutions and Services include:

Solutions Provider

We have access and buying power for a multitude of vetted cybersecurity technologies.

- Application Security
- Cloud Security
- Data Security
- Email Security
- Endpoint Security
- Governance, Risk & Compliance
- Identity & Access Management
- Incident Response & Threat Intelligence
- Managed Security
- Network & Infrastructure Security
- Security Education & Awareness
- Security Operations Center (SOC)
- Vulnerability Management & Penetration Testing

Security Consulting

We provide deep domain expertise to solve complex security and compliance challenges.

- Cloud Security
- Incident Response & Threat Intelligence
- Threat & Attack Simulation
- Application Security
- Governance, Risk & Compliance
- Identity & Access Management

Technology Solutions

We provide support through the entire security lifecycle:

- Security Technology Effectiveness review
- Tech Evaluation, Implementation & Operationalization
- Platform Subject Matter Expertise with an agnostic approach
- Security Architecture Review
- **Core competencies include:** Container Security, DevSecOps, Network Security, Risk & Vulnerability Management, Security Operations & SOC Design, and more.

Managed Security Services

We partner with leading MSSPs and deliver “As a Service” offerings for specific platforms.

As a Service Offerings

Application Security, Breach & Attack Simulation, Identity (AM, IGA, PAM), NGFW, Penetration Testing, Security Analytics, Third Party Risk Management, Threat Intelligence, Virtual CISO

End-to-End Managed Security

MDR, EDR, Vulnerability Management, Network Security, DLP, Web Application Firewall, DDoS and more.

About Us

GuidePoint Security provides trusted cybersecurity expertise, solutions and services to help organizations make better decisions that minimize risk. GuidePoint’s unmatched expertise has enabled a third of Fortune 500 companies and more than half of the U.S. government cabinet level agencies to improve their security posture and reduce risk.
